

## POTHOLES PELAGIC TOUR

On Saturday Sept. 16th or Sunday Sept. 17th, we have an opportunity to take a pelagic trip on the Potholes Reservoir just south of Moses Lake. I know, it is not really a pelagic trip, but we will be taking a boat out on the 28,000 acre man-made lake searching for waterfowl, shorebirds and anything else we see flying around.

Possible suspects include, Sabine's Gull (pictured), Bonaparte's Gull, Ca. Gull, Solitary, Stilt, Least, Baird's and Pectoral Sandpiper, Yellowlegs and Phalarope. There are a couple of places very close by we can visit after our boat trip if folks are interested. Mike Denny will be our boat guide - a great birder and fun guide. Because of the fast approaching date, we need commitments quickly - by August 18th. We will need at least 10 passengers for the trip to go. Cost will be about \$100 + hotel room the night before the trip. Please contact Ann Brinly at [agbmaelstrom@gmail.com](mailto:agbmaelstrom@gmail.com) if you are interested in joining us.
